Placement tips

- Place on flat surface
- See **Placement Diagrams**

Mount your Smoke/CO detector

Step 1   Remove the mounting bracket (see **Figure 1**).

Step 2   Install the battery (see **Figure 2**) and test Smoke/CO detector (see **Figure 3**).

Step 3   Pair with the panel.

   Settings (☰ button) > **Devices** > **+** > Select **Smoke/CO** > Follow the panel's instructions to pair your Smoke/CO Detector.

Step 4   Choose a location for your Smoke/CO detector (See **Placement diagrams**).

Step 5   Use the bracket as a guide and determine where to place the screws (see **Figure 4**).

Step 6   Screw the mounting bracket into the ceiling. Use the wall anchors provided as needed.

Step 7   Use the provided sticker to record the date installed and place it on the Smoke/CO detector.

Step 8   Twist Smoke/CO detector onto the mounting bracket to fix it in place.
