Key Fob

Set Up Your Key Fob

1 **Pair the Key Fob**

From the Panel home screen, select Settings (☰) → Devices → Add Device (+) → Key Fob.

Pull the battery tab to activate the fob.

Hold any button for 2 seconds to pair.

2 **Assign the Key Fob to a User**

Continue to Step 3 →

Key Fob Buttons

Away: Hold for 2 seconds to arm when leaving.

Stay: Hold for 2 seconds to arm while home.

Disarm: Hold for 2 seconds to turn the system off.

SOS: Press twice for emergencies.

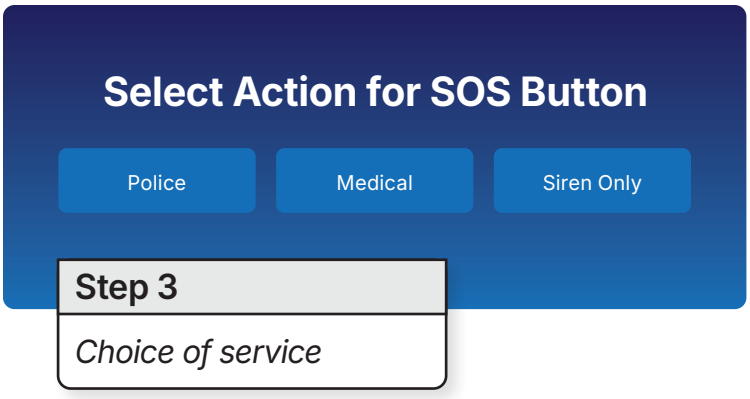
3 Set Up the SOS Button

Choose which service the SOS button should contact.

With subscription: Alerts the monitoring station and dispatches police or EMS (based on your setup).

Without subscription: Triggers the alarm on your Panel.

A blue LED confirms your command was sent.


Your Key Fob is ready.
