Wireless Video Doorbell

Set Up Your Wireless Video Doorbell

1 **Charge the Doorbell**

Charge until the blue LED stops flashing.

2 **Pair the Doorbell**

From the Panel home screen, select Settings (☰) → Devices → Add Device (+) → Doorbell.

Press the Doorbell when prompted.

Confirm “Yes” to join the network.

Choose a location and name.

Continue to Step 3 →

3 **Pair the Auxiliary Doorbell Bracket**

After the doorbell is paired, press the bell button on the Auxiliary Doorbell Bracket to pair.

4 **Install the Auxiliary Doorbell Bracket and Doorbell**

Mount the Auxiliary Doorbell Bracket using screws and anchors, if needed.

Slide the doorbell onto the bracket.

Secure it with the provided security screws. Do not overtighten.

Your doorbell is ready to use.
