The mobile app is for using the system, not device pairing.
Use the panel to pair new devices with the system.

Mobile App

ShieldPro Mobile app allows you to interact with your cameras, doorbells, and sensors.

First-time Login

Your login credentials are displayed on the panel when your system setup is complete. You will also receive them via email.

Security Screen

The main app screen. **Arm and Disarm (1)** the system on this page.

Tap **Sensors (2)** to see all active, open, or bypassed sensors. You can bypass or reactivate sensors here.

Use the **Footer menu (3)** to navigate through the app.
